## Mathematics and Computer Science

## Requirements for the Major in Computer Science

The major requires successful completion of the following:

| Course Requirements ${ }^{\text { }}$ |  |  |
| :---: | :---: | :---: |
| CSCI 157 | Introduction to Modeling and Programming | 4 |
| CSCI 257 | Data Structures ${ }^{2}$ | 4 |
| CSCI 284 | Database Design with Web Applications | 4 |
| CSCI 320 | Analysis of Algorithms | 4 |
| CSCI 370 | Computer Organization | 4 |
| MATH IoI | Calculus I (or higher) | 4 |
| MATH 215 | Discrete Mathematical Structures | 4 |
| Select four additional courses in computer science (CSCI) numbered above $270{ }^{3}$ |  | I6 |
| Select one additional breadth course in an application area: ${ }^{3}$ |  | 4 |
| ART 287 | Electronic Sculpture |  |
| ECON 34i | Game Theory |  |
| ENST 217 | Fundamentals of GIS |  |
| MATH 301 | Introduction to Numerical Analysis |  |
| MATH 332 | Mathematical Modeling |  |
| PHYS 203 | Intermediate Electricity and Magnetism I |  |
| PSYC 254 | Introduction to Behavioral Neuroscience |  |
| STAT 204 | Elementary Statistics |  |
| or another course approved by the student's advisor |  |  |

Total Semester Hours

## Additional Requirements

A comprehensive examination ${ }^{4}$
${ }^{1}$ A student majoring in computer science must present nineteen full course credits (seventy-six hours) from outside the major field.
2 With the permission of the department, students who are well prepared may begin their computer science sequence with CSCI 257.
3 Electives are to be selected in consultation with the departmental advisor. MATH 301 emphasizes both numerical and symbolic computing and may serve as one of the required computer science electives.
4 A student with a double major in the department must take a comprehensive exam in each major, and must take twelve full course credits (forty-eight hours) outside the major field.

## Honors

Departmental honors may be conferred on students considered worthy of distinction. Most of the following accomplishments are generally expected: (I) an average of at least 3.50 in computer science courses numbered above 270 ; (2) a superior performance on both the written and oral comprehensive examination; (3) an original project, usually as part of a 444 computer science elective course, and oral defense or presentation of the work; and (4) additional course work in computer science beyond the minimum requirement.

## Pre-engineering Program

Both mathematics and computer science are options in the pre-professional engineering program. The major is slightly abbreviated to accommodate a student's shortened time at Sewanee. The major is completed during the subsequent two years of study at the relevant engineering institution. Scheduling of courses during the three years at Sewanee is often complex. Students should consult departmental advisors within their major of interest in their first year to avoid scheduling conflicts.

A student must complete all core curriculum requirements of the college. A comprehensive examination is not required for a preengineering major.

## Course Requirements

CHEM Ior

| CHEM 102 |  |  |
| :--- | :--- | ---: |
| CSCI 57 | Introduction to Modeling and Programming | 4 |
| CSCI 257 | Data Structures | 4 |
| CSCI 320 | Analysis of Algorithms | 4 |
| CSCI 370 | Computer Organization | 4 |
| CSCI 428 | Operating Systems | 4 |
| MATH IOI | Calculus I | 4 |
| MATH IO2 | Calculus II | 4 |
| MATH 207 | Multidimensional Calculus | 4 |
| MATH 212 | Differential Equations | 4 |
| MATH 215 | Discrete Mathematical Structures | 4 |
| PHYS IoI | General Physics I (Lab) | 4 |
| PHYS iO2 | General Physics II (Lab) | 4 |
| Select one additional course in computer science (CSCI) numbered 300 or above | 4 |  |
| Select three advanced courses in computer science or computer engineering at the designated engineering school | 4 |  |
| Total Semester Hours |  | 4 |
