<b>Additional Requirements</b>		
A comprehensive examination		

- <sup>1</sup> Courses numbered below 130 do not count toward the major.
- <sup>2</sup> At least four of the required and elective biology courses must have a laboratory.
- <sup>3</sup> The Department of Biology will allow an AP test score of 5 or a higher level IB test score of 6 or 7 to substitute for BIOL 133. Students should be advised that mastery of the material covered in BIOL 133 is important as majors will be tested on it during their comprehensive exams.
- <sup>4</sup> Students may only receive credit once for courses delivered as both lab and non-lab offerings.

**Required for a B.S. (but not for a B.A.) in Biology**
