

Civic and Global Leadership

Requirements for the Certificate in Civic and Global Leadership - Community and Global Health Track

Courses in the community and global health track expose students to the nature and significance of health and health care to human life and social development. Students learn about the effects of health on the human condition, debates over what justice requires in terms of providing access to health care, as well as political and policy debates over access to health care, internationally, nationally, and locally.

This certificate of curricular study requires successful completion of the following:

Additional Requirements

Students must complete an approved practicum requiring sustained engagement on one specific social issue working in a specific community, with a community organization, or on a specific social issue in multiple sites. The practicum requires an extended commitment over the period of two semesters and a summer or its equivalent (500 hours total). The practicum is overseen jointly by a faculty member and a site supervisor.
