

Interdepartmental (NOND)

NOND 130 Being Human in STEM (4)

An interdisciplinary, project-based learning course focused on exploring and promoting diversity and inclusion within the STEM community (STEM = Science, Technology, Engineering, and Math). Students and instructors collaborate to investigate issues related to belonging in STEM on campus and beyond by evaluating scientific literature on diversity and inclusion within STEM fields, developing tools and approaches, and sharing findings with the community. This course is intended for students interested in pursuing a STEM major.

NOND 220 Methods of Teaching Writing (1)

The course surveys the expectations for successful writing in several disciplines and explores various strategies peer and professional tutors may employ to help student writers attain their goals. Participants will examine samples of student writing, discuss possible responses, and develop model interactions between tutors and students. *Prerequisite: Only open to Writing Center tutors.*
